

Lights, Camera, Action..

All you need to know how to make your own tv programmes

The Inspirational Science Theatre Company

Short Creative Science Movies using Video Cameras

Pupils will learn how to get the most out of a camcorder, create storyboards and produce narrative structured science films within tight deadlines.

Dr Ken completed a PhD in soap bubbles before running away to join the circus. Juggling has taken him several times around the world whilst his science training led him to the world of radio and television, producing and presenting educational programmes.

Recent Project Work includes

Teaching Drama and Media students to produce high quality science videos about famous scientists that could be used as a School resource and improve GCSE practicals.

Exploring how teachers can use class sets of video cameras in science lessons
