

AMAZING | ENTERTAINING NEW IDEAS | HIGH PERFORMANCE SCIENCE & TECHNOLOGY

The Scientists

Appearing and disappearing in a laboratory near you

STRAW THEORY

All your Answers Questioned?

ICE CHEMISTRY

Is it Cool or is it Hot?

WARNING!

It is not necessary to have completed a comical science course to understand or enjoy this lecture.

One small step from relativity...
...one giant leap from gravity

The Scientists

Guaranteed to attract attention everywhere.
Highly Visual Theatre!

The Scientists will...

travel the galaxy demonstrating weird science and bizarre phenomena. These unique and funny investigations are compulsive viewing. No strangers to comic disaster, the Scientists will always put their own reputations at risk before each others safety.

The Laboratories

'Microlab' Interactive Walkabout.

Engage directly with the scientists. Observe "exstrawordinary" experiments. Find out about science past, present or future. Be amused and entertained for seconds, minutes, hours, days, millennia.

'Megalab' Show suitable for Lecture Halls and Theatres.

Albi is brought back to life using genetic engineering and levitation in a tribute to Dr Frankenstein. His life flashes past him and behind him in a series of comedy stunts and mystifying tricks that reveal some of sciences best kept secrets.
