

The Sky at Day

A Roving Planetarium for those Afraid of the Dark

'Out of this World...' Glastonbury Festival

'What will they think of next?.....'

An astronaut floats in zero gravity pursued by an astronomer armed only with a strange telescope. People stop, stare into space and are drawn into an absurd tour of the universe. Whether you're looking through the lens or are part of the audience you are guaranteed a different comic experience.

'Blue Peter has alot to answer for' Q Magazine

'They attract audiences at so many levels' Out There Festival
